Reason to celebrate!

The North Shore Health Department received notification about our Chapter 140 Review from Wisconsin DHS. Our notification letter from State Health Officer Karen McKeown reads:

“The Department of Health Services (DHS) congratulates the North Shore Health Department for demonstrating the infrastructure and program capacity to be certified as a Level III Health Department...I want to acknowledge the work of the North Shore Health Department Staff. Ann Christiansen, health officer, did an excellent job of providing quality evidence of meeting statutes and rules. I also appreciate the support of the North Shore Board of Health for maintaining a strong public health department.”

The Wisconsin DHS evaluates operations of all 88 local health departments in Wisconsin at a minimum of every five years, establishing departments as level I, II or III.
