

Dear Village of Fox Point resident,

Waste Management is excited to be the new provider of weekly single-stream recycling collection services for the Village of Fox Point residents. Recycling benefits Fox Point as it not only conserves natural resources, but it also helps reduce the amount of materials sent to the landfill. Plus with single-stream recycling, all your recyclables can now go into one bin – no more sorting of materials. We look forward to helping the Village of Fox Point be as clean – and green – as possible throughout 2017 and beyond.

Here are a few things to keep in mind:

Recycling Collection

Your recycling collection day will be the same as your trash collection day, and like trash, recyclables will be collected every week as it currently is serviced. Making sure the right materials go into your recycling is important. Please see the adjacent panel to learn how Fox Point residents can use the Recycle Often. Recycle Right.SM program. To learn more about our Recycle Often. Recycle Right.SM program and to become a Recycling Ambassador, visit the website at RecycleOftenRecycleRight.com.

You may continue to use your current 18-gallon recycling bin. Cardboard and paperboard can be flattened and stacked and placed next to your recycling bin.

Missed Recycling Collections

Despite our best efforts we occasionally miss a scheduled collection. If this does happen please contact Waste Management at (888) 960 0008 as soon as you can and we will make arrangements to pick up the material we missed.

For further information, please contact Waste Management at (888) 960 - 0008 or wmeservice@wm.com

When Fox Point residents use **Recycle Often. Recycle Right.SM**, great things happen. By recycling everyday items like those shown below, tons of raw materials, time, energy and money are saved. Plus the recycled materials become new products – if you recycle an aluminum can today, it could be back on the shelf as a new one in 60 days – and the cycle continues.

- Place only the acceptable recyclables shown below together in your recycling bin – no sorting needed.
- Containers that held food should be rinsed free of food debris and liquid.
- Do not put recyclables in plastic bags.

Recycling will be collected weekly. Acceptable materials for curbside recycling include:

Always recycle:

Plastic Bottles & Containers

Food & Beverage Cans

Paper

Flattened Cardboard & Paperboard

Food & Beverage Cartons

Glass Bottles & Containers

Do NOT include in your mixed recycling cart:

NO Food Waste
(Compost instead!)

NO Plastic Bags & Film
(Find a recycling site at plasticfilmrecycling.org)

NO Foam Cups & Containers
(Check Earth911.org for options.)

NO Needles
(Keep medical waste out of recycling. Place in safe disposal containers like Waste Management's MedWaste Tracker[®] box.)
